

AMENDMENTS TO THE CLAIMS

1. (Original) A method for providing a power tool combo kit from a provider to a customer, the method comprising the acts of:
 providing an available group including multiple power tools of various tool models;
 receiving a ~~desired request~~ selection from the customer of ~~multiple requested~~ a plurality
 of power tools from the available group;
 ~~selecting configuring a selected group of multiple selected~~ the selection of power tools
 ~~from the available group, the selected group corresponding to the desired request~~ as a combo
 kit having a particular price; and
 providing the combo kit including the selected group of multiple selected power tools to
 the customer.
2. (Original) The method of claim 1, wherein the act of providing the combo kit further comprises the act of providing a carrying case having sufficient space to store the selected power tools.
3. (Original) The method of claim 1, wherein at least two of the selected power tools in the selected group are cordless power tools, and wherein the act of providing the combo kit further comprises the act of providing a battery charger and at least one rechargeable battery compatible with the battery charger, at least one of the selected cordless power tools being compatible with the battery.
4. (Original) The method of claim 3, wherein the first-mentioned battery is incompatible with another of the selected cordless power tools, and a second battery is compatible with the other of the selected cordless power tools and incompatible with the at least one of the selected cordless power tools, the battery charger being operable to charge the first battery and the second battery.
5. (Original) The method of claim 1, wherein the selected group includes at least two power tools of the same tool type.
6. (Original) The method of claim 5, wherein the selected group includes at least two power tools of the same tool model.

7. (Original) The method of claim 1, wherein the available group include both cordless power tools and corded power tools.
8. (Original) The method of claim 1, wherein the combo kit is a single purchase unit.
9. (Currently amended) A method for providing a power tool combo kit, the method comprising the acts of:
 - providing an available group including multiple power tools of various tool models;
 - selecting a ~~selected group including multiple selected~~ plurality of power tools from the available group, the selected ~~group~~ power tools including multiple power tools of the same tool type; and
 - providing a combo kit to the customer, the combo kit including the selected ~~group~~ power tools.
10. (Original) The method of claim 9, wherein the selected group includes at least two power tools of the same tool model.
11. (Original) The method of claim 9, wherein at least two of the power tools in the selected group are cordless power tools, and wherein the act of providing the combo kit further comprises the act of providing a battery charger and at least one rechargeable battery compatible with the battery charger, at least one of the selected cordless power tools being compatible with the battery.
12. (Original) The method of claim 11, the act of providing the combo kit further comprising the act of providing a carrying case having sufficient space to store the selected tools, the battery charger, and the battery.
13. (Original) The method of claim 9, wherein the combo kit is a single purchase unit.
14. (Original) The method of claim 9, wherein the method further comprises the act of receiving a desired request from a customer of multiple requested power tools from the available group, and wherein the selected group corresponds to the desired request.

15. (Original) A method for providing a power tool combo kit from a provider to a customer, the method comprising the acts of:

providing an available group including multiple cordless power tools of various tool models;

receiving a customer request of multiple requested power tools from the available group; providing a selected group of multiple selected power tools in response to the customer request, the selected group corresponding to the customer request; and

providing a combo kit including the selected group, a battery charger, and a battery compatible with the battery charger, the battery being compatible with at least one of the cordless power tools to power the at least one of the cordless power tools of the combo kit.

16. (Original) The method of claim 15, wherein the selected group includes at least two power tools of the same tool type.

17. (Original) The method of claim 16, wherein the selected group includes at least two power tools of the same tool model.

18. (Original) The method of claim 15, wherein the combo kit is a single purchase unit.

19. (Original) The method of claim 15, wherein the combo kit includes the first-mentioned battery and a second battery, the first-mentioned battery being compatible with a first cordless power tool of the selected group and being incompatible with a second cordless power tool of the selected group, the second battery being compatible with the second cordless power tool and being incompatible with the first cordless power tool, the battery charger being operable to charge the first battery and the second battery.

20. (Original) The method of claim 19, wherein a third cordless power tool of the selected group is compatible with both the first battery and the second battery.

21. (Original) The method of claim 15, wherein the available group includes corded power tools and cordless power tools.

22. (Original) The method of claim 21, wherein the customer request includes corded power tools and cordless power tools.

23. (Currently amended) A method for providing a power tool combo, the method comprising the acts of:

providing an available group including multiple cordless power tools of various tool models;

selecting a ~~selected group of multiple selected~~ plurality of cordless power tools from the available group, the selected group power tools including at least two power tools of the same tool type; and

~~providing a combo kit including the selected group,~~ selecting a battery charger, and at least one rechargeable battery compatible with the battery charger, the battery being compatible with at least one of the cordless power tools in the ~~available group~~ selected plurality of cordless power tools; and

configuring the selected cordless power tools, the battery charger, and the at least one rechargeable battery as a combo kit at a predetermined price.

24. (Original) The method of claim 23, wherein the selected group includes at least two power tools of the same tool model.

25. (Original) The method of claim 23, wherein the combo kit is a single purchase unit.

26. (Original) The method of claim 23, further comprising the act of receiving a customer request of multiple requested power tools from the available group, the selected group corresponding to the customer request.

27-32. (Cancel)

33. (Currently amended) A combo kit comprising:

a first power tool of a first tool type; and

a second power tool of the first tool type; and

wherein the first power and the second power tool are the same tool model.

34. (Cancel)
